Work experiences

Pfizer, Automation

May 2024 – Present

Automation Engineer

Recipe creation and maintenance (S88), Equipment modules, phase module and control module programming, backup & restore testing and maintenance, virtualization and host-environment administration, finding root causes in deviations and rotational 24 hour on-call duty. Some process network handling.

Pfizer, Automation

March 2019 – May 2024

Automation Technician

Recipe creation and maintenance (S88), Equipment modules, phase module and control module programming, backup & restore testing and maintenance, virtualization and host-environment administration, finding root causes in deviations and rotational 24 hour on-call duty. Some process network handling.

Notable project: Co- automation lead on the customer's side of a DeltaV upgrade which involved change of hardware (host-environment/servers) and software updates. Heavily involved in CQV activities, writing of URS, performing FAT, SAT and Pfizer internal qualifications/validations of the system. Participated and co-lead the project through the whole project cycle.

Notable project: Big update of recipes to enable the possibility to have production running on fewer batches per week. Involved big structural changes in the S88 recipes, updates of Infobatch triggers for batch reports. Commissioning and change control.

Pfizer, Production

April 2017 – March 2019

Process technician

Astrazeneca, PET BFS

February 2016 – April 2017

Machine Operator Shift-lead

Notable project: Installation of new packing line, started working at the company when they we're at the end of the design phase and just starting commissioning.

Scania

October 2015 – February 2016

CNC-operator

VolvoSteget - Yrkesutbildning

November 2014 – October 2015

CNC-operator & assembler

Education

Advanced Higher Vocational Education Diploma

September 2022 – June 2024

Iris Yrkeshögskola, Automation Engineer towards process industries

Yrkesutbildning

October 2014 – October 2015

Volvo CE, Volvosteget, Certificate as CNC-operator & assembler

Högskoleutbildning

September 2013 – December 2013

Skövde högskola, Network- and systemadministration

Gymnasieutbildning

John Bauer Gymnasiet, IT, Eskilstuna

Graduated 2013

Other Skills

Languages

Swedish – Native language

English – Fluent

Spanish – Basic

Other Educations

DeltaV Live Advanced

DeltaV Engineering Advanced

Infobatch Advanced

Driver's license

IT Essentials Certificate (Cisco)

Short about me

My friends and colleagues would describe me as a very hard-working individual who has a big passion for all things automation. Fast learner, effective and has no problem taking initiatives. I always strive to stay positive and can handle stressful situations well. Logic thinker and enjoys problem-solving.
